1975

RK Industries began as a small startup in Belwa, Jodhpur, Rajasthan

With time, **RK Industries** embarked on the journey of trading, commission, warehousing & logistics of spices across the world—cumin being the main product.

2017

In response to excessive adulterated food products in the market, RK Industries led to the inception of home brand **FARM ORGANIC** under RK India Exports Pro Ltd.

An organic oath was established to ensure sustainability, quality, & customer trust with our **ICS** holding **2000 farmers** across India engrossed in organic cultivation.

Our ethos to give 1% of our profits to society has helped us to collaborate with various **FPOs & NGOs** based in tribal areas, thus enriching their lives.

2023

FARM ORGANIC has acclaimed to be a global brand under **RK Group**.

Farm Organic brand is spreading its wings globally, bringing vivid savoury flavours to the market.

Our
Trek

MISSION

Farm Organic is committed to embodying organic farming practices by ensuring quality, feasibility, professionalism, and trust in sourcing, processing, packaging, testing, and delivering our products, and striving to transform the world into a thriving haven by embracing nature's offerings while preserving Mother Earth. This is further enriched by providing ample employment opportunities and simultaneously empowering farmers, women, and the generations to come.

VISION

Our ambition is to revolutionize the landscape of the Organic & nutritious food industry. We aim to achieve this by sourcing ingredients in their natural state and rejuvenating Mother Earth with its sacred soil. We advocate for a sector that is not only healthy and environmentally conscious but also socially responsible. Our company's goal is to establish itself as a beacon of trustworthiness, authenticity, and inventive exploration in the organic realm. We are dedicated to delivering homemade flavours and aromas to people around the world.

WHY INDIA?

India has been known as the mother of spices; since ancient times and is also known for its versatility in aroma and flavour. India is the largest exporter of spices and spice products, thus establishing its reputation as an apotheosis in the sowing, harnessing, manufacturing, and distribution of delectable spices. India, being an agro-food taste-goblet accelerator and located in the sub-tropical region, is blessed with a habitable climate so as to support the cultivation of a basket of edibles.

PROCESS

WHY ORGANIC?

Organic farming implies regenerative agricultural practices that fuse environmental sustainability and socially responsible ethics with climate-resilient practices. Also, to maintain sustainable food systems for future generations, it is essential to adopt practices that bestow yield stability and enhance soil health so as to help us mitigate climate change and thus preserve Mother Earth, while providing us with nutritious, natural, pure and organic products.

BENEFITS OF ORGANIC FARMING

Maintains Soil Health & Improves Sustainability.

Less risk of ingesting pesticide residue & preventing allergies.

Nutrition-rich diet.

No preservatives imply longer shelf life.

Better agricultural yield due to crop rotation.

Negligible environmental pollution because of non-chemical production.

SERVICES WE OFFER

1. Warehousing

2. Private Labelling

3. Grading, Sorting, Grinding, Packing, Testing

4. Customize your Brand Designing

5. Contract Farming
